

AFFYGILITY SOLUTIONS ANNOUNCES NEW RELEASE OF AFFYTRAC – NOW WITH MULTI-LANGUAGE FUNCTIONALITY

LAFAYETTE, Colo.–(BUSINESS WIRE)– Affygility Solutions, a global leader in providing environmental, health and safety solutions to the life sciences industry, announced today the launch of its newest version of its environmental, health, and safety (EH&S) software Affytrac with multi-language functionality. Now, users can enjoy the option to view all Affytrac menu items, field names, and system generated e-mail notifications in either English or Italian. In addition, date and calendar formats are presented in either in the U.S. or EU format.

“We are extremely pleased with our newest release of Affytrac,” says Dean M. Calhoun, CIH, President and CEO of Affygility Solutions. “We are aggressively positioning Affytrac to be the leading environmental, health and safety software solution in the life science industry. In addition to English and Italian, in the near future, other languages such as French, Spanish, German and Portuguese will follow,” said Calhoun.

About Affytrac

Affytrac is a simple, affordable web-based tool used for environmental, health and safety task management, corrective actions, and potent compound safety. Affytrac is highly scalable, secure and significantly improves the efficiency of any EH&S organization. It is currently being used by life science clients throughout the United States and Europe.

About Affygility Solutions

Affygility Solutions offers environmental, industrial hygiene, safety and toxicology services to the biotechnology, pharmaceutical and medical device industries. Our services include the web-based Affytrac EH&S software tool, online training seminars, potent compound safety categorization, occupational exposure limits, toxicology services and more. We’ve provided these services to small, mid-size and large companies throughout the United States, Canada and Europe.
